using the SELECT Button (speeds are shown on the screen by the triangular mark(s) under the score).

Firing Your Weapons

Your Star Fighter carries two types of weapons: a powerful laser cannon (Button II)

and cluster bombs (Button I). The power of the laser cannon can be changed and enhanced by acquiring certain "power up" items and

gel capsules along the way. The cluster bombs produce powerful explosions which inflict substantial damage on all surrounding aliens. The number of bombs remaining is displayed in the lower right-hand corner of the screen, and only this number of bombs can be used!

Increasing Firepower

As you move to higher levels, the power of your lazer cannon can also be increased by capturing gel capsules that are dropped by certain enemies.

Photon Blaster

Each lazer blast produces up to three explosions.

Field Thunder

A powerful lazer stream. As your level increases, the lazer will change its field of attack and pattern.

Power Up Items

Homing Missile
